Participation in Funding Programs: Workone or INTraining

Mission, Vision, Values and Institutional Goals

Mission:
AC/C Tech offers technical non-degree and degree programs designed to provide applied skills to meet the growing demands of personnel and professional property maintenance technology while providing opportunities for career advancement and lifelong learning.

Vision:
AC/C TECH's vision includes offering residential and apartment maintenance training to students nationwide as there is a demonstrated need and a sustainable source of jobs for qualified individuals who complete our training. As homes and apartment units become either older or more advanced in nature, a more highly qualified individual will become necessary to maintain those facilities.

Values:
AC/C TECH values expresses an ethical spirit in which we operate, recruit students, provide training, and promote skills developed. We recognize that a community of learning cannot function professionally without respect for basic moral order, and therefore, we understand that the furthering of excellence requires greater commitments. In addition to basic moral principles, we affirm emphasis on the development of personal character and ethical standards that oversee the conduct of our faculty and students. In short, the entire AC/C TECH family must commit to: [1] personal responsibility, [2] academic honesty and integrity of work, [3] moral respect for everyone and their property, and [4] ethical concern for the good of this institution and for the good of mankind, particularly our students. Embracing these ideas will help us achieve a humane learning environment.

Institutional Goals:
AC/C TECH seeks to achieve its mission through the following institutional goals.
➢ Recruit individuals seeking technical maintenance training opportunities.
➢ Provide quality online technical training which leads to developing the knowledge, skills, and competencies necessary for achieving excellence in residential and apartment maintenance.
➢ Help students achieve credentials, earn fulltime employment, and build a lifelong career in residential and apartment maintenance technology.
➢ Cultivate partnerships with various national, state, and local associations and property management firms to further develop student enrollment.

Areas of Special Focus: Residential & Apartment Technology
